

**Bob Sherwood, EVP Global Institutional Food Safety and Public Health**

Sherwood leads critical food safety and public health initiatives for the global institutional business, which provides food safety and cleaning and sanitizing solutions to the foodservice, healthcare, hospitality, lodging, long-term care and commercial building markets.

Sherwood serves on the board of directors of the International Foodservice Manufacturers Association and previously served on the board of directors for the United Way of Greensboro and the International Food Service Executives Association of New York.
